

### REMARKS

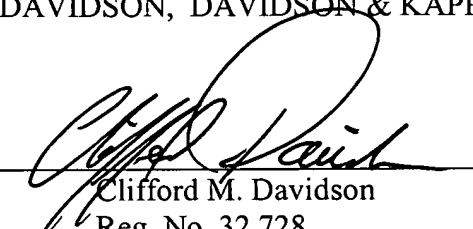

This is in response to the Office Action dated February 17, 2000. In the February 17, 2000 Office Action, the Examiner stated that the Applicants' November 29, 1999 Response to an earlier Sequence Listing Requirement was not fully responsive because of errors in the Sequence Listing. Specifically, the <220> features with associated headings were said to be missing. In response, Applicants herewith submit a substitute Sequence Listing in computer readable form on the enclosed substitute 3.5 inch computer disk, and a corresponding paper copy, in compliance with 37 C.F.R. §§ 1.821-1.825, and hereby request entry of the paper copy of the substitute Sequence Listing into the specification. No new matter has been added.

Pursuant to 37 C.F.R. §1.821(f) and (g), I hereby state that the information recorded in computer readable form is identical to the paper sequence listing. I hereby state that the submission herein does not include new matter.

The Specification has also been amended in order to comply with the Sequence Listing Requirements.

An early and favorable action on the merits is earnestly solicited.

Respectfully submitted,
